Giants

In

The

Land

The femur in the picture above was Found in Turkey in 1950. the size of This bone would make this giant at Least 15 feet tall or taller than Goliath! Lets see what Daniel has to Say about Giants in the Land!

Giants In The Land!

P1 Stretch your mind for a moment! What do you know about giants? Do you remember Jack and the Beanstalk? Hercules? Paul Bunyan? Goliath? We do not know much about giants because many people have tried, evolutionist for example, to cover up their history.

The bible talks about a lot of things that some people call fairy tales. But the giants were no fairy tale! The bible talks about unicorns, dragons and giants as real live beings. In fact Daniel seems to indicate to us that the giants of the bible will return again before the Lord Jesus Christ sets up his eternal kingdom on earth.

It will take us several lessons to cover the giants but I thought it would be interesting to you and to me to see just how real the Bible truly is!

Lets go back now to Daniel 2 and get our first hint about the giants coming again!

P2 Dan 2:42 And as the toes of the feet were part of iron, and part of clay, so the kingdom shall be partly strong, and partly broken. 43 And whereas thou sawest iron mixed with miry clay, **they** shall mingle^{mix} themselves with the seed of men^{humans}; but they shall not cleave one to another, even as iron is not mixed with clay. The "they" in this verse is connected to another verse in the book of Genesis which we will look at shortly. Seed of men equals humans so the "they" must be someone or something else but what? Let's read the next verse before we go to Genesis.

P3 Dan 2:44 And in the days of these kings^{the half iron half clay kings} shall the God of heaven set up a kingdom, which shall never be destroyed: and the kingdom shall not be left to other people, but it shall break in pieces and consume all these kingdoms, and it shall stand for ever. Who are these half clay half iron kings? Where do they come from. The book of Genesis tells us.

P4 Before God sent the flood of Noah, Satan tried take over the world by using giants. These giants came from evil fallen angels who took human women for wives. Their children are where the original giants came from!

P5 Gen 6:1 And it came to pass, when men began to multiply on the face of the earth, and daughters were born unto them, 2 That the sons of God^{Angels} saw the daughters of men that they were fair; and they took them wives of all which they chose. If we think of the "iron" in Daniel as the fallen or evil angels then the "clay" of Daniel would be the human women. The children born to these parents are giants!

P6 Gen 6:4 There were giants in the earth in those days; and also after that, when the sons of God came in unto the daughters of men, and they bare children to them, the same became mighty men which were of old^{legend}, men of renown^{very important}.

P7 These giants were killed off in Noah's flood but as you can see from the verse that the evil angels more than once and take human wives.

P8 This will be enough to get us started this week! Next week we will find out even more about the giants of the past and of the future!

Real Life Skeletons Of Giants That Have Been Found Around The World

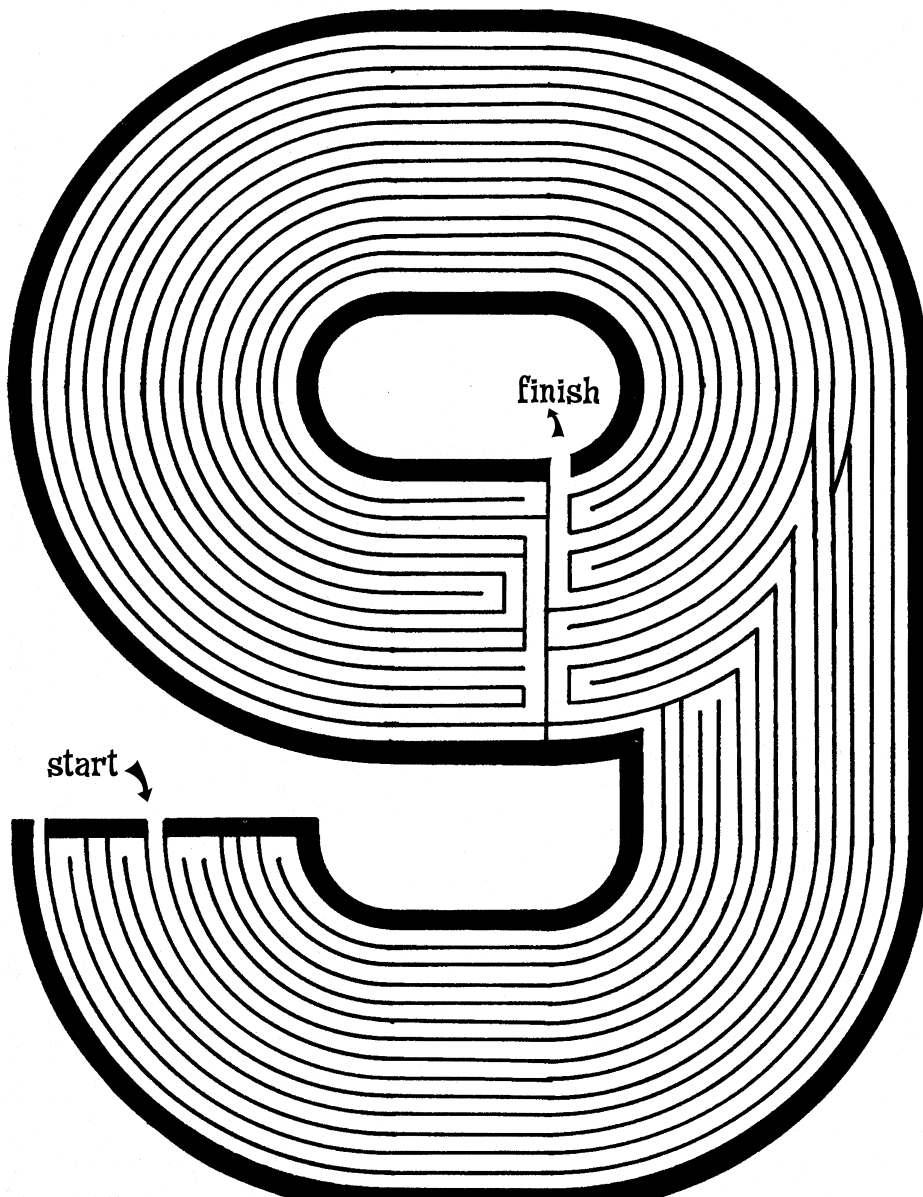

- A. Present day modern man which averages about 6-feet tall + or - several inches or more.
- B. 15-foot human skeleton found in southeast Turkey in late 1950's in the Euphrates valley during road construction. Many tombs containing giants were uncovered here. This pertains to the picture of the giant human femur and myself above.
- C. Maximinus Thrax Caesar of Rome 235-238 A.D. This was an 8' 6" skeleton.
- D. Goliath was about 9 feet + or - a few inches. I Samuel 17:4 late 11th century.
- E. King Og spoken of in Deuteronomy 3:11 whose iron bedstead was approximately 14-feet by 6-feet wide. King Og was at least 12-feet tall, yet some claim up to 18.
- F. A 19'6" human skeleton found in 1577 A.D. under an overturned oak tree in the Canton of Lucerne.
- G. 23-foot tall skeleton found in 1456 A.D. beside a river in Valence, France.
- H. A 25' 6 " skeleton found in 1613 A.D. near the castle of Chaumont in France. This was claimed to be a nearly complete find.
- I. Almost beyond comprehension or believability was the find of the two separate 36-foot human remains uncovered by Carthaginians somewhere between 200-600 B.C.

Some Other Giants In History...

(Caius Julius Verus Maximinus) Roman emperor (235–38). A rough Thracian soldier of great physical strength, he rose in the army, and when the soldiers revolted against Alexander Severus, they proclaimed Maximin emperor at Mainz. He established order among the troops and conducted highly successful campaigns against the Germans.

In 238 there was a rebellion in Africa, and Gordian was named emperor by the landowners. Maximin marched on Italy and advanced on Aquileia. In the siege he was assassinated by the soldiers.

Statues of Maximinus and coins minted with his image bear out his size he was nearly 9 feet tall. Another Roman historian, Julius Capitolinus, describes his hands as so large that he used the bracelet of his wife, Caecilia Pauline, for a thumb-ring. The shoes he wore also measured a foot longer than the footwear of other men. Maximinus reportedly could, with one blow of his fist, knock out a horse's teeth. On occasion he also demonstrated he could out pull a chariot team. Capitolinus says that he daily ate forty pounds of meat and usually drank six gallons of wine.

GIANT
MAZE

THINK

1. Why do you think the Bible is true when it talks about Unicorns, Dragons and Giants?
2. What is the largest giant skeleton ever found?
3. How did God destroy the first giants?
4. Where did the first giants come from?
5. What giant in history could out pull a team of chariot horses?
6. Do you THINK there will be real giants again and if so why?
7. What did you learn today?

1811 - The RUSSIAN GIANT MACHNOW at the London Hippodrome. SEPARATE PHOTO OF MACHOW CAR AND WIFE

Another Kind Of Giant Was The Dinosaur
This one is a PARALITITAN.
His name means Coast Giant.
PARAL = Coast
TITAN = GIANT

He was 85 feet long
13 feet tall

Weight 55 Tons or 110,000 pounds

Where would he fit on our giant skeleton chart?
Maybe some giants rode these guys!
